

S2VT

- 1 - Conductor: flexible tinned copper – Nickel
- 2 - Electroglass spiral impregnated with P.T.F.E.
- 3 - Electroglass spiral impregnated with P.T.F.E.
- 4 - Electroglass braid impregnated with P.T.F.E.

CHARACTERISTICS:

Operating temperature of insulation materials: -40°C to +320°C
 Operating voltage: 300 V
 Test voltage: 500 Vac for 1 minute
